

Guiding ambitious corporate climate action

Enabling Frameworks

We Mean Business Coalition works with the world's most influential businesses to take action on climate change. The Coalition catalyzes business and policy action to halve emissions by 2030 and accelerate an inclusive transition to a net-zero economy.

Greenhouse Gas Protocol establishes comprehensive global standardized frameworks to measure and manage greenhouse gas emissions from private and public sector operations, value chains and mitigation actions.

The Science Based Targets initiative (SBTi) drives ambitious climate action in the private sector by enabling organizations to set science-based emissions reduction targets.

ICVCM is an independent governance body for the voluntary carbon market, aiming to ensure the voluntary carbon market accelerates a just transition to 1.5°C.

VCMi

VCMi provides guidance to companies on the credible use of carbon credits and how they communicate about this use, incentivizing climate leadership.

CDP runs the global environmental disclosure system for companies to report their environmental impacts and provides stakeholders (investors, purchasers and policymakers) with access to data that is consistent and comparable.
